

# EFFORTLESS STEPS TO A CLEAN, CLEAR LAKE

Lake Wawasee

■ 0-10 Feet

## PHOSPHORUS

1. DON'T USE IT!
2. SEAWEED USES PHOSPHORUS TO GROW.
3. TELL YOUR LOCAL SUPPLIER OR LAWN CARE PROVIDER THAT YOU ONLY WANT ZERO PHOSPHORUS FERTILIZER.
4. ONCE RELEASED INTO THE LAKE IT STAYS IN THE SEDIMENT.

## PRESERVE OUR LAKE BOTTOM

1. STIRRING LAKE BOTTOM SUSPENDS THE PHOSPHORUS.
2. ACCELERATING IN SHALLOW WATER CREATES SEDIMENT PLUMES.
3. SHALLOW WATER IS HIGHLIGHTED ABOVE IN BLUE.
4. WAKEBOARD AND SURF IN DEEPER WATER (YOU WILL HAVE A LARGER WAKE ANYWAY).
5. BEGIN PULLING SKIERS AND TUBERS IN DEEP WATER.

## DIMINISH WAVE ACTION

1. CONSIDER GLACIAL ROCK IN FRONT OF YOUR SEAWALL.
